Oh let's all move, Oh let's all move
Move our big lines, Move our big lines
Oh let's all move our big lines
Moving big lines can be fun
Now just march and follow along

Move big lines high, Oh move them high
Move big lines low, So very low
Move your big lines high and low
You can move your body too
There is so much we can do

Let's move them out, Now move them out
Out in the front, Out in the front
Now move your big lines to the front
We'll climb them up and climb them down
We can even touch the ground
Now let's tap them

Let's tap them loud, Oh tap them loud
And tap them soft, Oh tap them soft
Just tap your big lines loud and soft
Oh tap your big lines just for fun
Tap them while we march around

We must all move, We must all move
Up to the TOP, Up to the top
Move your big lines to the TOP
Your letters all start at the TOP
Move big lines and never STOP!

Picking Up My Pencil

Oh I’m picking up my pencil look at me
All my fingers are where they’re supposed to be
Oh I’m picking up my pencil look at me
Watch me hold it correctly

The thumb is always bent
Pointer points to the tip
Tall man helps he helps your pencil grip
He lets the pencil rest right on his side
The last two fingers tuck them in for a ride

Now I’m holding it just right but not too tight
Every finger is doing it just right
Now you might have missed what
I was showing you!
So I’ll drop it and do it again with you

Pick up your pencils
Check your neighbors
Do you have a bent thumb?
How does pointer look?
Get ready, 1 2 3 4

Now we’re picking up our pencils watch and see
All our fingers are where they’re supposed to be
‘Cause we’re picking up our pencil and you’ll see
We can hold it correctly

The thumb is always bent
Pointer points to the tip
Tall man always helps your pencil grip
He lets the pencil rest right on his side
The last two fingers tuck them in for a ride

Now we’re holding it just right, but not too tight
Every finger is doing it just right

Now we should be as proud
As proud can be
We can hold it, correctly

Number Song

Numbers are great
And numbers are fun
Let’s all start with the number 1
Start at the top
Make a big line
Your number 1, it looks just fine
For number 2, now what do we do?
Make a big curve and a little line too
Your 2 looks great
But don’t be late
3 is next and we just can’t wait

Chorus:
Numbers, numbers
Not toys or cars or cucumbers
Hey did you ever wonder
How we could count without numbers?

To make number 3 oh all we need
Are two little curves just wait and see
A little curve once and a little curve twice
The 3 is done and it looks so nice
Here comes 4 it rhymes with door
Make two little lines and al big line more
The 4 is through now what should you do?
5 comes next that’s just a clue

Chorus

With number 5 now what do we do?
Drop a little line and a little curve too
Then jump back up to the top
Add a little line and then you stop
Start number 6 at the top like this
Drop a line down and do the curvy trick
Write it again just for fun
6 is a slippery slidey one

Chorus

7 is easy, so easy to do
A little line across and slide down too
We’re counting higher all the time
Just remember 7 has two lines
Number 8 is so much fun
Start with s then up to the sun
Write it big and write it small
That wasn’t very hard at all

Chorus

We’re counting higher to number 9
Write a little curve and one big line
Write it once, write it twice
99 is mighty nice
Can you write a number 10?
You get to use the 1 again
Draw a 0 next to one
Now your 10 is really done
We wrote the numbers 1 to 10
What comes next?
Write them again

Chorus

1 2 3 4
5 6 7
8 9 10
